Team: I have completed the DE Lec (no group e-mails) 00002 & 00006 batches. The docs in these batches were mostly foreign language. However, the batches also included docs containing enough English to determine the appropriate Top Level Issue(s) and level of relevance. I've summarized some examples below (most "Relevant" rather than "Hot"). I would also note that I saw several docs in these batches containing English language references to "G.MTG" or "G/MTG"- I coded these docs "Hot" for the Conspiracy Top Level Issue. I have moved on to a Watanabe batch. Thanks, and have a great Thanksgiving.
